

ABS at BASO Conference & AGM

19th and 20th May 2010

at York Racecourse

Final Programme

Welcome from the President

Dear Members and Delegates

It gives me great pleasure to welcome you to York again for the Association of Breast Surgery Conference & AGM. Last year we had a very successful meeting here, and I think this year's programme put together by Mark Sibbering and colleagues is going to be equally if not more stimulating and entertaining.

We are honoured to have some renowned international contributors. The British Journal of Surgery Lecture on the history of the NSABP will be given by Professor André Robidoux from Montreal, and the European Journal of Surgical Oncology Lecture on surgery for locally advanced breast cancer by Dr Vani Parmar from Mumbai. Professor Emiel Rutgers of the Netherlands Cancer Institute is going to tell us how the rest of Europe manages the axilla, and will also bring us up to date on gene profiling. We have two sessions on oncoplastic surgery, and I am delighted that Dr Krishna Clough from the Paris Breast Centre is participating in both of these, and talking to our trainees in the Mammary Fold Symposium. Professor Michael Kerin of Galway has kindly agreed to help us again with the analysis of the vital Breast Cancer Audit data produced by Gill Lawrence and colleagues at the West Midlands Cancer Intelligence Unit, which is now the NCIN Lead Registry for breast cancer.

Prevention and early detection are very much at the forefront of improving cancer outcomes, and Professor Anthony Howell starts us off with an important session addressing the influence of diet and exercise, followed by a look at the effects of diversity in the North East, and key messages from screening. There is a much needed session on gynaecomastia, and Dr Daniel Rea will be telling us about the impact of the TEAM study on hormonal therapies. Other prominent experts from across the UK will be addressing hot topics throughout the conference.

I look forward to seeing you and trust you will find this a valuable opportunity to meet and share ideas with colleagues in all disciplines, from home and abroad. Please feed back to us and share any thoughts you have for future conferences. Thank you for your participation, and have a good time!

Martin Lee
President
ABS at BASO

Final Programme

Wednesday 19th May 2010

10:55 – 11:00 Welcome and Introductory Remarks
Mr Mark Sibbering, ABS at BASO Meetings Secretary

Session 1: Epidemiology and Audit Chair: Mr Martin Lee

11:00 - 11:30 Diet, Exercise and Breast Cancer
Prof Anthony Howell, Christie Hospital, Manchester

11:30 – 11:45 Breast Cancer, Ethnicity and Social Class in the Northern and Yorkshire Region
Mr Clive Griffith, Newcastle

11:45 – 12:15 Breast Screening Audits – headline data
Dr Gill Lawrence, West Midlands Cancer Intelligence Unit

12:15 – 12:30 Discussion

12:30 - 13:15 Association of Breast Surgery at BASO AGM

12:30 – 14:00 Lunch

Session 2: BJS Lecture Chair: Mr Dick Rainsbury

14:00 - 14:30 The history of the NSABP
Professor André Robidoux, Montreal

Session 3: Trials and Genetics Chair: Mr Stewart Nicholson

14:30 – 15:00 The breast surgeon in the era of gene profiling
Prof Emiel Rutgers, Netherlands Cancer Institute, Amsterdam

15:00 – 15:30 What do the TEAM Trial results tell us about adjuvant hormone treatment strategies?
Dr Daniel Rea, Birmingham

15:30 – 16:00 Tea and Coffee

Session 4: The Axilla Chair: Mr Mark Sibbering

16:00 – 16:15 Pre-operative identification and localisation of sentinel lymph nodes using microbubble enhanced ultrasound in breast cancer patients
Mr Peter Jones, Maidstone

16:15 – 16:30 Management of the axilla – current UK Practice
Dr Gill Lawrence, West Midlands Cancer Intelligence Unit

16:30 – 16:55 Current management of the axilla in Mainland Europe
Prof Emiel Rutgers, Netherlands Cancer Institute, Amsterdam

Session 4: The Axilla continued

- 16:55 – 17:15** Intra-operative molecular analysis of sentinel lymph nodes
Mr Constantinos Yiangou, Portsmouth
- 17:15 – 17:30** NHS Technology Adoption Centre - Rapid Introduction of Breast Lymph Node Assay Technology
Mr Simon Cawthorn, Bristol
- 17:30 – 18:00** Panel and Audience Discussion

ABS at BASO Annual Dinner

National Railway Museum, Wednesday 19th May 2010 7.30pm for 8pm
(see general information at the end of this programme)

Thursday 20th May 2010

Session 5: EJSO Lecture Voltigeur Suite 2

Chair: Mr Martin Lee

09:00 – 09:25

Volume replacement for locally advanced breast cancers
Dr Vani Parmar, Tata Memorial Hospital, Mumbai

Session 7: Oncoplastic Surgery I Voltigeur Suite 2

Chair: Mr Chris Caddy

09:25 – 09:45

Volume replacement – Long term results of LD Miniflap reconstruction in early breast cancer
Mr Dick Rainsbury, Winchester

09:45 – 10:15

Classification of oncoplastic techniques: a quadrant per quadrant atlas
Dr Krishna Clough, The Paris Breast Centre

10:15 – 10:30

Panel and Audience Discussion

Session 6: Breast Cancer Audit Data Voltigeur Suite 1

Chair: Mr Neil Rothnie

09:00 – 10:30

Analysis of Breast Cancer Audit Data
Dr Gill Lawrence, West Midlands Cancer Intelligence Unit & Prof Michael Kerin, Galway

10:30 – 11:00

Tea and Coffee

**Session 8:
Gynaecomastia
Voltigeur Suite 2**

Chair: Miss Julie Doughty

11:00 – 11:20

Gynaecomastia in the breast clinic
Mr Christopher Wilson, Glasgow

11:20 – 11:40

Surgery for gynaecomastia
Mr Charles Malata, Cambridge

11:40 – 12:00

Salvage Surgery for Gynaecomastia
Mr John Scott, Glasgow

12:00 – 12:30

Case studies and discussion

**Session 9:
Mammary Fold Symposium
Voltigeur Suite 1**

Chair: Ms Jennifer Hu

11:00 – 11:30

Oncoplastic Training in Paris
Dr Krishna Clough, Paris

11:30 – 12:00

Adjuvant Systemic Treatment – the current evidence
Dr Daniel Rea, Birmingham

12:00 – 12:30

MS Degree in Oncoplastic Breast Surgery
Prof Jerome Pereira, Great Yarmouth

12:30 – 13:30

Lunch

Session 10: Oncoplastic Surgery II Chair: Miss Fiona MacNeill

13:30 – 13:45

The National Mastectomy and Breast Reconstruction Audit
Prof Jerome Pereira, Great Yarmouth

13:45 – 14:00

Quality of life outcomes after immediate LD flap breast reconstruction
Miss Zöe Winters, Bristol

14:00 – 14:20

Breast Reconstruction Using Strattice Reconstructive Tissue Matrix
Mr Lester Barr, Manchester

14:20 – 14:45

Techniques to correct poor cosmetic outcomes after breast conserving surgery
Dr Krishna Clough, The Paris Breast Centre

14:45 – 15:00

Discussion

15:00

Close of meeting

International Guest Speakers

Dr Krishna B Clough

Dr Krishna B Clough is a surgical oncologist and a plastic surgeon, specialized in breast surgery.

He graduated in general surgery and in surgical oncology, but also in plastic, cosmetic, and reconstructive surgery. After completing his surgical training in France (Paris University) and in the United States (Columbia University, New York, and

Emory University Atlanta), Dr Clough joined the most famous French hospital for breast cancer treatment (the Curie Institute) in 1990. In 1996, he was appointed Chief of the Department of General and Breast Surgery of the Curie Institute, where he published numerous clinical and research papers on breast cancer and breast surgery. He decided to resign from his hospital functions in 2004 to found the Paris Breast Centre - L'Institut Du Sein, the first centre in France dedicated exclusively to breast surgery and breast cancer.

Meanwhile, he kept on his clinical research and teaching: he, along with a small group of European surgeons, created the concept of "Oncoplastic surgery" (the use of sophisticated plastic surgery techniques to extend surgical possibilities for breast conservation and reduce post operative sequellae). Fully integrated into a

multidisciplinary treatment, the concept of oncoplastic surgery is now spreading worldwide in the field of breast oncology, as it is considered as one of the main recent advances in breast cancer surgery.

Dr Clough is a member of the board of directors of the French Society of Breast Disease. He is also a member of the French Societies of oncology, and plastic, reconstructive, and cosmetic surgery. He is one of the founding members of Breast Surgery international and a member of the European Society of Mastology.

Dr Clough has represented France in numerous international working groups (consensus conferences), whose works have been the object of reference publications. He is the founder and director of the breast surgery masterclass at the European School of Surgery (Paris), and is the co-chairman of the breast surgical course at the European Institute of Oncology (Milan).

He has published over 120 scientific articles on breast surgery and the treatment of cancer in international scientific journals. As such, he is constantly invited to give lectures and presentations in numerous countries. He has authored several chapters in teaching books and a book for patients about breast cancer (Breast Cancer, Editions Marabout, Paris).

Dr Vani Parmar

Dr Vani Parmar graduated from Lady Hardinge Medical College, New Delhi, India in 1986 followed by general surgical training from 1988-1990 at Safdarjung Hospital, New Delhi. After completing her Fellowship in Breast Surgical Oncology (1999-2002) she joined the Tata Memorial Hospital, Mumbai as faculty, where she is currently serving as an Associate Professor

and Consultant Breast Surgeon in Department of Surgical Oncology.

Dr Parmar is primarily interested in oncoplastic breast surgery in early breast cancers and volume replacement LD flap for extended indications of breast conservation in both large operable and locally advanced cancers. Apart from being a principal investigator in various investigator

initiated and collaborative research group trials, her main areas of interests are in sentinel node biopsy in early breast cancer and after neo-adjuvant chemotherapy; disseminated tumour cells in bone marrow and circulation; breast cancer in young women & quality of life issues; and neo-adjuvant intervention studies in locally advanced breast cancer.

She is a member of the International Breast Cancer Study Group (IBCSG), Asian Breast Cancer Study Group and the Indian Breast Group (IBG) and a board member of the Women's Cancer Initiative – Tata Memorial Hospital, an NGO based in Mumbai. Dr Parmar is also an active member of the committee formed by ICMR (Indian Council of Medical Research) for evolving management guidelines for breast cancer treatment in India. She has contributed numerous articles to medical journals and chapters on breast cancer in text books for postgraduate education and serves on the editorial board of various medical journals.

International Guest Speakers

Dr André Robidoux

Dr André Robidoux is currently Professor of Surgery (tenure) and Scotia Chair in diagnosis and treatment of breast cancer at the University of Montreal. Dr

Robidoux is a graduate of the University of Montreal where he received both the Baccalaureate of Arts and Doctor of Medicine degrees. He completed his post-graduate training in Surgery in Montreal and in the Department of Developmental Therapeutics at MD Anderson Cancer Centre, University of Texas in Houston.

He is an elected member of the Board of Directors of the National Surgical Adjuvant Breast Project (NSABP). He served on the Board of the Canadian Breast Cancer Research Alliance Research Advisory Committee and on Council of the Royal College of Physicians of Canada. He also served on the steering committees of the Breast Cancer Prevention Trial and the STAR trial. Dr Robidoux has also served on numerous NSABP committees including the executive committee and the quality assurance committee. His research activities have been supported by continuous competitive renewal grants from the National Health Institutes and the National Cancer Institute for the last 28 years. He also received grant support from Canadian Breast Cancer Research Alliance and Canadian Institutes of Health Research.

Prof Emiel Rutgers

Prof Dr Rutgers is a Surgical Oncologist at the Netherlands Cancer Institute in Amsterdam, Netherlands, Head of the Department of Surgery and Chair of the Institute's Breast Cancer Working Group. After earning a medical degree from the State University of Utrecht in the Netherlands, he completed his residency training in internal medicine at Sint Antonius

Ziekenhuis, Utrecht, and his general surgery training at the St. Joseph-Ziekenhuis in Eindhoven. Prof Rutgers is currently Secretary General of the EORTC, fellow of the Royal College of Surgeons (London & Glasgow); treasurer and past-chair of the European Organization for Research and Treatment of Cancer (EORTC) Breast Group; and chair of the National Dutch Working Group for the guidelines on screening, diagnosis, and treatment of breast cancer. He is a member of several societies including the

European Society of Surgical Oncology, Society of Surgical Oncology (United States), American Society of Clinical Oncology (ASCO), and of the Executive Committee of the European Society of Mastology. He was Chair of the European Breast Cancer conference in Berlin April 2008.

Prof Rutgers' main fields of interest is breast cancer, with emphasis on prognostic and predictive factors (micro-array techniques), risk management and prevention, and optimisation of surgical procedures including neo-adjuvant chemotherapy, sentinel node procedure and immediate breast reconstruction. He is on the editorial board of the European Journal of Surgical Oncology and the author or co-author of more than 250 articles, abstracts, and book chapters on different aspects of breast cancer. Prof Rutgers is the principal investigator of the EORTC-AMAROS Trial (in sentinel node biopsy in breast cancer) and the EORTC MINDACT Trial, which is studying the value the 70-gene micro-array Mammprint test in node negative and positive breast cancer.

General information

ABS at BASO Annual Dinner

National Railway Museum, (Leeman Road, York YO26 4XJ)

Wednesday 19th May 2010 7.30pm for 8pm

Ticket holders only

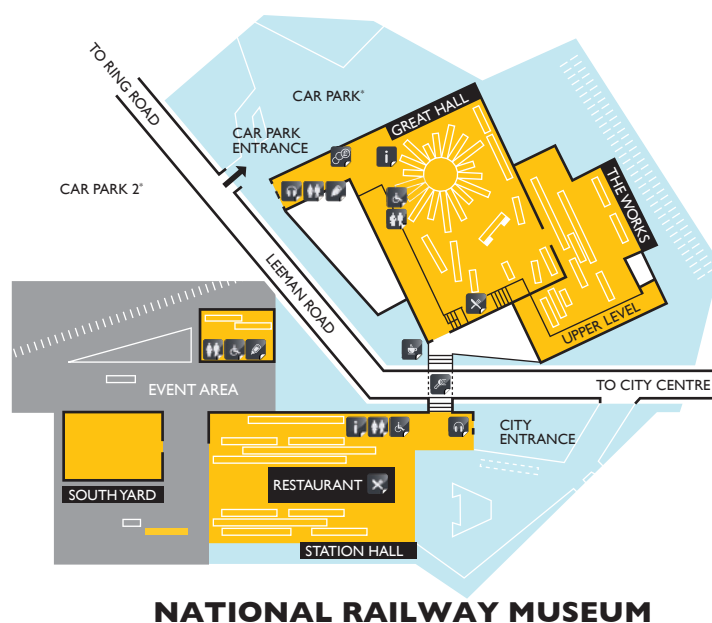

Please enter the museum by the City Entrance. There is free parking available at the main Museum car park off Leeman Road.

Dress for the Annual Dinner is lounge suits and guests are advised that the Station Hall is climate controlled to preserve the exhibits so it is recommended that they bring a jacket or similar.

Coaches will run from the Marriott Hotel on Tadcaster Road to the National Railway Museum from 7.15pm to 7.50pm. These will run about every 15 minutes.

Coaches will return to the Marriott Hotel from the National Railway Museum from 11pm till 1am. These coaches will additionally drop off at Clifford's Tower for guests staying in the city centre. Coaches will leave from outside the museum's city entrance about every 15 minutes.

Please note: Could all guests bring their tickets to the dinner as they will be required to enter the Station Hall.

Trade Exhibition

The Trade Exhibition will run for the duration of the meeting on the Ground Floor of the Knavesmire Stand.

Registration Desk

The Registration Desk will be open at the following times:

Wednesday 19th May 2010: 09:30 to 18:00

Thursday 20th May 2010: 08:30 to 15:00

Security

In the interests of security, delegates are required to wear their name badges at all times during the meeting

CPD

A certificate of attendance will be issued to delegates, who sign the attendance register. This can be included in your CPD portfolio as proof of attendance at the meeting and, according to current guidance, should be accompanied by notes on how the meeting has been of benefit to your career development or current practice. For further information see the Senate of Surgery of Great Britain and Ireland's document, "Maintaining your Performance. Dossier of Guidance on Continuing Professional Development for Surgeons", November 2004 at www.rsceng.ac.uk/publications/doc/maintaining_performance.html

The Royal College of Radiologists has awarded 10 RCR Category 1 CPD credits for the two days of this meeting.

ALL DELEGATES REQUIRING A CERTIFICATE OF ATTENDANCE MUST SIGN THE REGISTER AT THE REGISTRATION DESK ON EACH DAY OF THEIR ATTENDANCE

Lunch and Refreshments

Lunch and refreshments will be served at the times listed in the programme. All refreshments will be served on the ground floor of the Knavesmire Stand.

Cloakroom

Coat rails are available in the ground floor lobby area for delegates. These will not be manned. For delegates wishing to leave coats in a secure area and also for delegates wishing to leave bags, a manned cloakroom is available on the 4th floor of the Knavesmire Stand.

Transport

Coaches will be available for delegates attending the conference on Wednesday 19th May 2010. These will run between Clifford's Tower in the city centre, York Racecourse and the Marriott Hotel about every 20 minutes from 09:30 to 18:30.

Coaches will be provided by Morse Coaches and will be marked, "ABS at BASO Conference, York Racecourse".

Pick up points are:

Clifford's Tower: At the bus stop on Clifford Street, next to the Riverside Gardens.

York Racecourse: By the entrance to the Knavesmire Stand by the footbridge

Marriott Hotel, Tadcaster Road: At the front of the hotel outside reception.

On Thursday 20th May coaches will run along the same route as the previous day and will run about every 20 minutes from 08:00 to 15:30. After 11:30 coaches will stop additionally at the War Memorial Gardens on Leeman Road for York Station.

Please note that these coaches are being provided for the convenience of delegates, however the Association cannot be responsible if delegates have to wait as the coaches are full or if the coaches do not run to time. In these circumstances delegates may need to use alternative methods of transport.

The Association of Breast Surgery will be launched in the summer.

Association of Breast Surgery
NURSING CONFERENCE

9th September 2010
at the Royal College of Surgeons, London

Programme includes sessions on:

- Molecular targeting of Breast Cancer
- New techniques – intra-operative node assessment & lipomodelling
- Family History roll out in the NHS BSP
- What is new in nursing practice
- Debate: This house believes that the pressure to act as a mini-doctor threatens the foundations of the Breast Care Nurse Role

Provisional programme information and on-line registration will be available in due course on the Association of Breast Surgery website:
www.associationofbreastsurgery.org.uk

Association of Breast Surgery Conference
16th & 17th May 2011, Manchester Central

Accommodation
An accommodation service is being provided for the conference by Vica Manchester
See <http://www.conferencebookings.co.uk/delegate?NACABS2011>

Venue
The conference will be held in the Manchester Central Convention Complex
For further details see: www.manchestercentral.co.uk

Getting there
Air: There are flights to Manchester airport from across the UK and Europe.
Trains run to and from Piccadilly station to the airport every 15 minutes and take about 20 minutes.
Trains Manchester can be reached via a number of intercity routes.
For further details see www.thetrainline.com

Parking: An NCP car park is available for delegates to use at Manchester Central.
For details of location and charges see www.ncp.co.uk

Getting around
A free city centre bus is available to take visitors around Manchester. Metrobus routes operates from 7am to 7pm Monday to Saturday and 10am to 6pm on Sundays.

Provisional programme details will be available in due course and will include a full day parallel meeting for Breast Care Nurses

Abstract submission will be open on the new ABS website from September

The deadline for abstract submission will be the 5th January 2011

Registration will open in January 2011

The Association's Annual Dinner will be held at the Midland Hotel on the 16th May 2011
